DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim(s) 1 fail(s) to recite sufficient structural elements and interconnection of the elements to positively position and define : 1) how the panels are moved simultaneously; 2) how one cable moves one of the panels and if it only moves one structure, how those structures are moved simultaneously (it appears that claim 11 provides some structure to allow for such) so that an integral structure able to function as claimed is recited.

Allowable Subject Matter

Claims 19-35 are allowable over the prior art of record.

Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Kuhn, Collier, Tang, Dailey, McFall, Cohen et al teach structure similar to applicant's.
